

## Introducing the NEW Periflex Family – now even better!

January 2006

Dear Valued Customer:

In response to feedback from customers and healthcare professionals, Nutricia North America has improved the formulation and changed the look of Periflex. The NEW Periflex family has more protein, the healthiest fat blend among PKU formulas and age-specific formulations. As always, Periflex has a pleasant taste, smell and texture. The NEW Periflex family is even better and provides optimal nutrition for all ages.

### Periflex Junior

- Toddlers & younger children
- Requires **20% less** powder than Original Periflex

### Periflex Advance

- Older children & adults
- Requires **40% less** powder than Original Periflex

Other things to note about Periflex Junior and Periflex Advance:

- can and case size have remained the same (4 x 454 g cans/case)
- labels provide easy-to-follow instructions and clearly show age, flavor and indication
- available in unflavored, orange and chocolate

Nutricia North America is committed to bringing you the best in clinical nutrition products. We are confident that you will enjoy our new Periflex family of products. If you have questions on transitioning, discuss them with your healthcare professional. Questions can also be directed to our Nutrition Support Department at 1-800-365-7354, Monday through Friday, 8:30 am – 5:00 pm EST or visit [MySpecialDiet.com](http://MySpecialDiet.com) for additional information.

Sincerely,  
Metabolics Brand Team

Reformulated, New Age Group, New Look

# Optimal nutrition for all ages

Reformulated

NEW age group

## Periflex Junior

- Toddlers & younger children
- Requires **20% less** powder than Original Periflex

## Periflex Advance

- Older children & adults
- Requires **40% less** powder than Original Periflex

### PERIFLEX CONVERSION CALCULATOR

Since new Periflex Junior and Periflex Advance have more protein than original Periflex, you will need less powder than before. Use the Conversion Calculator below to help you calculate how much equivalent product you will need.

**Periflex Junior**  
toddlers and younger children

g powder  
amount of original Periflex currently taking

x 0.8 =

g powder  
equivalent amount of PERIFLEX JUNIOR

**Periflex Advance**  
older children and adults

g powder  
amount of original Periflex currently taking

x 0.6 =

g powder  
equivalent amount of PERIFLEX ADVANCE

## Periflex, now even better!

- ✓ More protein and healthiest fat blend among PKU formulas
- ✓ Requires less powder, resulting in less volume than original Periflex
- ✓ Pleasant taste, smell and texture
- ✓ Available in unflavored, orange and chocolate
